

# Coil Lifter

## Eliminates manual lifting

**S**ignode's new coil lifter eliminates the need for manual lifting of strap coils. Capable of lifting up to 125 lb coils, the standard coil lifter with clamps accommodates both mill and ribbon wound steel strap coils, as well as standard plastic strap coils. The Coil Lifter is designed for easy dispenser loading, both vertically and horizontally, and helps to eliminate dispenser damage due to improper loading techniques.

### Portable coil lifter

Mounted onto a sturdy, moveable steel cart, enabling the transport of coils safely throughout workspaces.

### Coil lifting hook for steel strap

Vertical lifting apparatus for standard mill or ribbon wound steel coils only.

### Stationary coil lifter

Capable of 360 degree rotation, the stationary coil lifter is ideal when space is a premium and movement of the coil within a 4 foot diameter is necessary. Equipped with a steel mounting post and all the accompanying hardware for secure mounting to floor.
