## FORM MUST ACCOMPANY TOOL FOR REPAIR AND IDENTIFICATION

### DESCRIPTION OF PROBLEM:

Your shipping of the tool in for repair will be used as authorization to evaluate and determine if the tool is worth repairing. If we feel the tool is not repairable, we will call you to discuss. Otherwise the tool will be repaired and shipped back to the sender and this form will act as your authorization for repair.

*USA Strapping Specializes in maintaining, repairing, and selling all brands of strapping and packing tools.*

USA Strapping is a full-service banding tool repair and sales company. Our service technicians have over 25 years experience in repairing tensioners, sealers, cutters, balancers and friction weld tools. Either manual, battery operated or pneumatic. We are able to offer quality repairs that will surpass your expectations, every time.

USA Strapping is committed to turning your repairs around quickly and at a price that is fair.
